PROFESSIONAL SUMMARY

Motivated and detailed Front-end developer holding a diploma from Vephla Institute in Front-End Engineering. specializing in React.js, Typescript, and modern frameworks, with proven experience building scalable, performant, and user-friendly web applications. Skilled in creating reuseable components, optimizing performance (memoization, lazy loading, code splitting), and collaborating with cross-functional teams. enthusiastic about developing user-friendly, responsive web apps.

SKILLS

• **Front-end technologies:** React.js, JavaScript (ES6+), TypeScript, Tailwind CSS, Zustand, shadcn/ui, Zod, Tanstack Query, Axios.
• **Frameworks:** fundamental understanding of Tailwind CSS and React.js.
• **Version control:** GitHub and Git**.**
• **Responsive design:** Grid, Flexbox, and Media Queries.
• **Tools:** Chrome DevTools,React DevTools,Figma, VS Code**.**
• **Soft Skills:** Cooperation, problem-solving, detail-oriented, and flexibility.

EDUCATION

B.eng Mechanical Engineering [**Adeleke University** — July, 2020]

Diploma in Front-End Engineering
[**Vephla Institute** — July, 2024]

PROJECTS

Personal Portfolio Website
HTML, CSS, JavaScript

- Designed and developed a personal portfolio website to showcase my projects and skills.
- Implemented responsive design for seamless performance on various devices.

- GitHub Link - https://yupappi.github.io/Portfolio/

To-Do List Application
HTML, CSS, JavaScript

- Created a simple To-Do list app that allows users to add, check completed tasks, and delete tasks.
- Gained hands-on experience with JS DOM manipulation and using eventListeners.
- GitHub Link - https://yupappi.github.io/TODO/

Weather App
HTML, CSS, JavaScript (API Integration)

- Built a weather app that fetches real-time weather data from an external API and displays it dynamically
- Developed responsive UI with CSS Flexbox for mobile and desktop devices
- GitHub Link- https://yupappi.github.io/weather-App/

Conference Ticket Generator App

- Developed a functional ticket generator using React, featuring state persistence and proper error handling.
- Applied UI/UX principles for accessibility and clean interface design.
- Live link - https://conference-ticket-generator-l4m5tkmur-adeleke-yusufs-projects.vercel.app/

Role-Based Inventory Management System

- **Tech:** React, Typescript, TailwindCSS, Zustand, Zod, Tanstack Query, Axios, shadcn/ui
- Led a 5-person cross-functional team to deliver a multi-dashboard system (super-admin, maintainer, admin, staff).
- Built role-based authentication, transaction monitoring, sales tracking, user management and activity logs with responsive UI design.

EXPERIENCE

Capstone final Project at Vephla Institute (MENTORHIVE)

- Collaborated with designers and other developers on small projects to improve web application UI
- Assisted with debugging and fixing front-end issues for web pages
- Utilized Git and GitHub for version control and team collaboration
- Github Link - https://yupappi.github.io/MENTORHIVE/

Frontend Web Developer - HNG Internship | February 2025 – April 2025

- Built scalable and responsive web applications using JavaScript, React.js, Typescript and Tailwind CSS.
- Collaborated with backend engineers, designers, product managers, quality assurance engineers and mentors to deliver real-world features, such as dashboards, interactive UIs and authentication flows.
- Applied component-based architecture, reuseable state management (Zustand), input validation (Zod), and API integration with Tanstack Query and Axios.
- Improved application performance by debugging, code refactoring and optimizing renders, using memorization and lazy loading.

CERTIFICATIONS

- Diploma in Front-End Engineering, Vephla Institute

ADDITIONAL INFORMATION

- Passionate about web development and constantly learning new technologies
- Currently exploring deeper React.js development and modern CSS frameworks like Tailwind and Bootstrap
- Open to junior-level or internship roles to build professional experience in web development
